

## Bottle Buddy and Famous Ohio Report

To write your report on a famous Ohioan, you may choose to write your report on the famous Ohioan you are going to be for Ohio Day or you may choose a famous Ohioan from the list provided.

In your report you need to include the following information. The introduction should be about the persons' childhood. For example, where were they born? When were they born? What city in Ohio were they born in? How many brothers and sisters did they have? Also include why you choose this person and what you would like to learn about this person's life.

The next part of your report should tell what they did to impact the world. What was or is their occupation? How did they use their occupation to help people? In your report write five or more facts that helped you learn about this persons life.

Your report should be between 1 and 2 pages long. If you type your report, please use font 12. If you are writing your report, please use a blue or black pen.
